

Caravan Of Love - Project

On 5 December 2014 it will be the first death anniversary of Nelson Mandela. We (artists and musicians) want to remember him and the concept of „Ubuntu“.

A contribution will be the „caravan of love“ project, which is supposed to be a social work of art and relies on viral dissemination.

The idea: everybody worldwide can take part in it, no matter of which ideology, religion, race, sex, nationality or age, no matter if alone or together with friends, your family or other social groups.

How it works:

lower on this page you'll find a craft template of a heart. You can print and customize it according to your ideas (please front and back!) or you'll use it as a template for any kind of other materials you like (dressing material, wood, metal, felt), to create it on your own style. You can also leave your name or a wish on it.

Please send your created hearts until the 28th of November 2014:
Sabine Rahe, Monumentenstr. 33-34, D-10829 Berlin, Germany

Then I will have one week left to put all hearts together to a „Caravan of Love“ until it will be presented on the Nelson-Mandela-Tribute-Event on the 5th of December 2014.
(The event is going to be monitored on cameras). You can inform you on the progress ->[here](#).

Thank you for your support!

Sabine Rahe

PS: please share and spread this invitation and help me with the translation into different languages.
